

Yoga In Schools Residency Pilot Project (YSRP)

by Debbie Spence, YAA Executive Director

The Yoga Association of Alberta (YAA) applied for and received a grant from the Government of Alberta's Healthy Active Living and Recreation Initiatives Funding Program to carry out a pilot project in support of the Government of Alberta's Active Alberta Policy as it applies to children and young adults. Based on the high degree of alignment with the Active Living Policies (active.alberta.ca), the government approved funding for the Yoga in Schools Pilot Project.

As part of this six-month project, six certified yoga teachers taught yoga for extended periods of time in 11 schools across urban and rural Alberta. Whole school yoga classes in which everyone could participate took place daily; longer, more in-depth classes for students and staff were held during

curricular and non-curricular times. The classroom teachers learned skills to maintain what was taught during alternate weeks.

The final number of teachers, students and staff participating in the program was over 2,782. The rural schools that participated were: Peace River School Division (K-12; 82 participants), Aspen View School Division (K-7; 770 participants); Parkland School Division (K-9; 512 participants). The urban schools that participated were: Parkland School Division (K-4; +700); Rocky View School Division (K-4; +430); Calgary School Division (3,4; +100). As well, staff and teachers had opportunities to participate in Professional Development learning activities presented by the yoga teachers.

The Yoga Association of Alberta joins its voice with the many children, parents and classroom teachers who expressed their sincere gratitude for the foresight of the Alberta Government in providing the funds for this very innovative program. Let's hope that we shall be able to find financial support in the future to continue exploring similar projects for extended periods of time and throughout the province!

Parents' Feedback

- *Our son enjoyed the yoga, but is already a very active 5 year old so it helped him to calm down. Thanks!*
- *Thank you for bringing yoga to this young age of children in a place where they are feeling open to learning. So much can be taught to help them get through "life" by learning the basics of yoga. Thank you.*
